

# RPU THANKS YOU!

These businesses and organizations, with help from their Energy Solutions Partners (ESP), worked with Rochester Public Utilities in 2011 to reduce electric consumption by more than 20 million kilowatt-hours. That amount of electricity is comparable to the average annual energy use of 2,000 homes in Rochester!

We can help your business or organization save energy and money, too! Visit [www.rpu.org](http://www.rpu.org) to learn more about **CONSERVE & \$AVE**<sup>®</sup>

In addition to those pictured, the businesses, organizations, and Energy Solutions Partners listed below also partnered with RPU in 2011:
