

FOR BOARD ACTION

Agenda Item # 4

Meeting Date:

8/30/11

SUBJECT:

Electric Service Rules & Regulations Update

PREPARED BY:

Mike Engle
Supervisor of Distribution Design

ITEM DESCRIPTION:

The Electric Service Rules & Regulations are routinely updated every few years. The purpose of the document is to inform customers and contractors what is generally available for different installations and to explain the requirements for service installations. A summary of the changes being implemented follows:

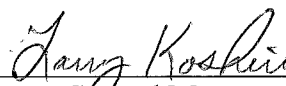

1. Section 613, Approved By-Pass Sockets, was revised to eliminate exceptions.
2. Section 903, Underground Service to Commercial and Industrial Customers, was revised regarding the number and size of secondary conductors allowed in three-phase transformers
3. Exhibit 8, RPU and Customer Responsibilities Associated with Underground Three-Phase Installations, was revised to eliminate the customer furnishing steel conduit for the riser pole.
4. All other changes were housekeeping changes to clarify an item or correct grammar.

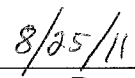

FOR CAPITAL PURCHASES/BIDS/MAJOR PROJECTS:

Not Applicable

UTILITY BOARD ACTION REQUESTED:

This is presented to the Board as an informational item. No action is requested.
