

FOR BOARD ACTION

Agenda Item # 4.b.

Meeting Date:

8/31/10

SUBJECT:

Interconnection Driveway to Rochester Public Works Operations Center

PREPARED BY:

Bill Cook, Manager of Work Management and Integrated Services

ITEM DESCRIPTION:

During the planning of the Rochester Public Works and Transit Operation Center (PWTOC) the benefits of being located adjacent to RPU were explored. Some of the benefits to RPU included the ability to utilize the PWTOC fueling station, vehicle wash facilities, and material storage. Funding for a driveway connecting the two sites was included in the RPU 2010 capital budget.

Work for this project includes grading and placement of a 275' bituminous driveway from the existing concrete pavement north of the Service Center to the common property line (see attached drawing). This driveway will be in alignment with and eventually connect to a planned road within the PWTOC.

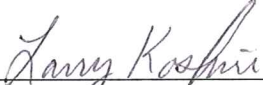

Quotes were requested from Fraser Construction and Elcor Construction. Fraser Construction Co. responded with a lump sum price of \$74, 175.00. Elcor Construction offered the lowest cost quote at \$59,182.16

FOR CAPITAL PURCHASES/BIDS/MAJOR PROJECTS:

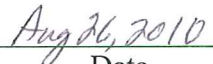

The work is a budgeted project for 2010 and the cost is within the allocated funds.

UTILITY BOARD ACTION REQUESTED:

Management recommends the Utility Board accept the low quote and approve a purchase order agreement with Elcor Construction in the amount of \$59,186.16.
