In the mid 1980's RPU performed a detailed space-needs and facility study. The study identified the need for a new service center facility, resulting in the construction of the current Service Center. The Service Center was designed to accommodate the growth of RPU for approximately 20 years.

TSP was hired early in 2005 to assist RPU in a Long-range Facility Study. The study conclusions and recommendations will be presented to the Board by Mr. Jon Neubauer of TSP. Hard-copies of the report will be provided at the meeting.
