^{*}N/S – Not submitted. Submitted non-specified device.

A variable speed drive will be installed for this well pump. Premature bearing failures on some similar well pumps with variable speed drives have occurred and replacement ceramic bearings have been installed. Therefore, staff recommends furnishing the pumping unit with the ceramic bearing and grounding ring.

FOR CAPITAL PURCHASES/BIDS/MAJOR PROJECTS:

Funds are available in the 2011 Water Utility budget for this project.

UTILITY BOARD ACTION REQUESTED:

Staff recommends the Utility Board accept the low quotation from Keys Well Drilling for the Well #40 pumping unit and approve a purchase order agreement with Keys Well Drilling in the amount of \$61,119.00 for the Well #40 pumping unit to include the added ceramic bearing and grounding ring.
