LEAK CORRECTION

If you are an electric customer of RPU that has a total of at least 10 HP of air compressors that operate at least 2,000 hours per year, RPU can provide you the use of an Ultrasonic Leak Detector for free to locate your leaks without shutting down your processes. Please see our Compressed Air Leak Correction Rebate Application for details.

SECTION K. TERMS AND CONDITIONS

1. ELIGIBILITY

Rebates are available to non-residential customers of Rochester Public Utilities (RPU). All products must be in use in facilities in RPU's service territory.

2. APPLICATION

Program is offered January 1 through December 31 of the respective calendar year. **Due to limited funding, this rebate offer can be changed or withdrawn at any time without notice and is available on a first-come, first-served basis.** All projects must be pre-approved by RPU to qualify for a rebate. The entire rebate application must be read and filled out completely or the application will be returned.

3. INSPECTION AND VERIFICATION

RPU reserves the right to inspect the customer's facility through on-site visits before and after new equipment installation or inventory to verify rebate eligibility. RPU reminds you to follow all local permitting and building code ordinances.

4. INSTALLATION AND REBATE AMOUNTS

Qualifying energy-efficient equipment installed and operational within six (6) months of the date of purchase are eligible for rebate. Additional time may be granted subject to RPU's pre-approval. In no case will the rebate paid by RPU exceed the purchase price of the equipment. The maximum rebate amount is \$100,000 per customer location per technology per year.

5. INVOICE AND PAYMENT

Following inspection and verification (see #3) and completed installation, the customer must notify RPU and submit original invoices specifying the model number, quantity and price of all materials purchased, the date ordered, installation costs, and applicable taxes. After satisfactory review of the invoices and on-site verification, a rebate check will be issued to the Customer. Vendors or contractors are not eligible to receive the rebate. Please allow 6 – 10 weeks from the date of on-site inspection for delivery of payment. RPU reserves the right to apply rebates to past due accounts.

6. EQUIPMENT ELIGIBILITY REQUIREMENTS

All equipment must be new. Used or rebuilt equipment is not eligible for an incentive. Eligible equipment must meet or exceed the specific requirements shown below. Usage of the new equipment must be at least 2,000 hours per year. Equipment that does not meet the requirements shown in this application may be eligible for an incentive under our Custom Program. Please contact RPU for details.

Variable Speed Drive (VSD) Air Compressor < 50 HP:

- VSD compressor must be less than 50 HP.
- VSD compressors purchased for backup do not qualify.
- Adding a VSD to an existing compressor does not qualify.
- Manufacturer specification sheet and CAGI sheet must accompany this application.

Air Storage/Receiver Tank:

- Applicable to load/no-load compressor systems only.
- New storage capacity (existing + added capacity) must be at least 5 gallons/CFM.
- Manufacturer specification sheet must accompany this application.

Pressure/Flow Controller:

- Controller must reduce average system air pressure by at least 5 psig.
- Total HP of baseload compressors distributing through controller must be at least 50 HP.
- Controller must be installed downstream from air storage/receiver tanks.
- Manufacturer specification sheet must accompany this application.

No Loss Condensate Drain:

- No loss/zero loss condensate drains only.
- Manufacturer specification sheet must accompany this application.

Low Pressure Drop Filters:

- New filter must replace standard coalescing filter.
- Total HP of baseload compressors distributing through filter must be at least 50 HP.
- New filter must have rated initial pressure drop of 1 psi or less.
- New filter must have rated life of at least 5 years.
- Filters purchased for backup do not qualify.
- Manufacturer specification sheet must accompany this application.

Refrigerated Cycling Air Dryer:

- Refrigerated cycling air dryers purchased for backup do not qualify.
- Existing dryer cannot be equipped with feature allowing operation in cycling mode.
- Installation of controls to existing dryers does not qualify.
- Manufacturer specification sheet and CAGI sheet must accompany this application.

Engineered Nozzles:

- The rated SCFM of the new nozzles cannot exceed the values shown in Section J, column D.
- Manufacturer specification sheet for each nozzle must accompany this application.

7. TAX INFORMATION

RPU will not be responsible for any tax liability imposed as a result of the rebate payment(s). Customers are advised to consult their tax advisors for details.

8. DISCLAIMER

RPU does not guarantee that the implementation of energy-efficient measures or use of the equipment purchased or installed pursuant to this program will result in energy or cost savings. RPU makes no warranties, expressed or implied, with respect to any equipment purchased or installed including, but not limited to, any warrant of merchantability or fitness for purpose. In no event shall RPU be liable for any incidental or consequential damages. Customers are solely responsible for the proper disposal of existing equipment. Consult the Minnesota Pollution Control Agency (MPCA) office for details at 800-657-3864.

9. ENDORSEMENT

RPU does not endorse any particular vendor, manufacturer, product, or system in promoting this rebate program. Listing a vendor or product does not constitute an endorsement, nor does it imply that unlisted vendors or products are deficient or defective in any way.

10. PRIVACY

Information contained in this rebate application may be shared with the Minnesota Department of Commerce and our co-op partners and also may be used in our advertising efforts with your permission as granted in Section B of this rebate application.

11. APPLICATION SUBMISSION
