☐ Central Air Conditioner
☐ No Air Conditioner

COOLING EQUIPMENT CAPACITY:

☐ TONS ☐ BTUH

COOLING EQUIPMENT EFFICIENCY (if known):

☐ SEER ☐ SEER2 ☐ EER ☐ EER2

AEROSOL DUCT SEALING

AIR SEALING:

Starting Test Reading:

CFM25

Final Test Reading:

CFM25

OFFICE USE ONLY

Rebate Total: \$ _____

Savings: _____ CFM25

SECTION D. REBATE APPLICATION CHECKLIST

Use this checklist to make sure you have completed the necessary steps to receive your rebates:

- ☐ 1. Read the following terms and conditions to determine if you are eligible for a rebate:
 - Only one installation address per application.
 - Rebates are intended for customers, not contractors or builders.
 - Rebates \$500 or less will be issued as a bill credit to your account. Rebates will not exceed the purchase price. Rochester Public Utilities (RPU) reserves the right to apply rebates to past due accounts.
 - To qualify for an electric rebate, efficient equipment must be connected to an active electric service supplied by RPU and is subject to inspection.
 - Purchase and install NEW products that meet our minimum efficiency requirements. Reconditioned, refurbished, or second-hand equipment is not eligible for a rebate. Products replaced under warranty or provided through a repair/replacement service agreement are not eligible for a rebate.
 - RPU reserves the right to reject any rebate application submitted as a result of work performed by a contractor who has failed to adhere to the terms and conditions established for the rebate program.
 - Due to limited funding, this rebate offer can be withdrawn at any time without notice. Applications will be processed on a first-come, first-served basis. All applications from this year's purchases (2026) must be received by March 31, 2027.
 - Rebates can only be offered on equipment that is installed while funding is in effect. In the event our program is discontinued due to depleted funds, we will not provide a rebate for items installed between the discontinued date and the end of that year.
 - No aerosol duct sealing could have previously existed. Rebates are not available for new construction. New construction is defined as a home built within the last two years.
 - A licensed contractor must perform the aerosol duct sealing.
 - Minimum 15% reduction in airflow (CFM25) is required in order to receive a rebate.
 - Only aerosol sealing is accepted. Mastic tape, metal tape, or any other tape sealing does not qualify for a rebate.
- ☐ 2. Complete the application, making sure to fill out all required sections in detail. Allow 6-8 weeks for processing. Missing or incorrect information will increase the processing time.
- ☐ 3. Submit duct sealing application along with a copy of the dated invoice and certification showing test results.
- ☐ 4. Sign and date the application.
- ☐ 5. Information contained in this rebate application may be shared with the Minnesota Department of Commerce and our co-op partners.
- ☐ 6. Submit completed forms and required documentation to RPU.
